### THE INTERVIEW CONTROVERSY

Between the Intelligencer and the Register Regretted By Senator Scott, Who Takes Occasion to Affirm That He Gave the Story to This Paper as Claimed—Harmony of Action By the Papers Desired.

Senator N. B. Scott was seen last night by an Intelligencer reporter and asked as to the progress of the proposed rejuvenation of the Hobbs glass factory. He said the matter was in good shape, and that there was no doubt of the success of the enterprise.

"All that is wanted," he declared, "is harmony and union all around, especially on the part of the newspapers. I have taken this matter in hand, and find a great deal of encouragement."

He regrets very much that there seems to be an unpleasant controversy between the Register and the Intelligencer concerning the first announcement of the enterprise. Mr. Scott says, with a view to getting the matter before the public, HE GAVE THE DETAILS TO BOTH PAPERS, and expected them to unitedly support the matter in the interest of the public good. BOTH PUBLISHED THE FACTS AS HE GAVE THEM, and the controversy should stop. It does not concern the public as to what the newspapers think of each other. The public desires the new factory, and the press can do a great deal of good in the matter. The Wheeling papers have it in their power to promote public enterprises, and the way to do the promoting is to act in harmony.

We stand forth boldly and say, without fear of contradiction, that when it comes to the best clothing for the least money we lead. "COMPLETE" is the only word fitting the condition of our stock. "PERFECT" more than anything else describes the quality of the clothing itself. Best patterns, best materials, best workmanship place our garments in a class by themselves, to be compared only with high-grade custom work—favorable in everything but price—there we have the advantage.
